

Jerry Olds

```
C:\WINDOWS\system32\cmd.exe
How many players do you wish per team? 4
You should have at least 9 but no more than 15 per team.
How many players do you wish per team? 12
How many players are available? -142
Please enter 0 or greater: 142
There will be 11 teams with 10 players left over.
Press any key to continue . . .
```

The image shows a Windows command prompt window titled "C:\WINDOWS\system32\cmd.exe". The window has a standard Windows title bar with minimize, maximize, and close buttons. The command prompt displays a series of prompts and user inputs. The first prompt is "How many players do you wish per team?", followed by the user input "4". A message "You should have at least 9 but no more than 15 per team." is displayed. The second prompt is "How many players do you wish per team?", followed by the user input "12". The third prompt is "How many players are available?", followed by the user input "-142". A message "Please enter 0 or greater:" is displayed, followed by the user input "142". The final output is "There will be 11 teams with 10 players left over." and a prompt "Press any key to continue . . .".
